Did you know...
What's new in version 8.7?

ACT 1 Systems released software version **8.7** on **March 1, 2013** for client downloading and installing. For complete details of all enhancements, please see *"What's New in Version 8.7?"* on pages **1-2** to **1-6** of the updated Software Guide, or go to www.act1systems.com/wnvercurandhist

AFFILIATE SYSTEM & RESEARCH:

- **Saved Input Lists (Demos, Dayparts, Markets, etc.) are now stored with Date and Time for better tracking.**

AFFILIATE SYSTEM:

- **New "Edit Prefixes" button in the 'Lineup Selection' dialog allows users to modify lineup code prefixes without manually changing individual lineup codes.**

LINEUP MANAGER:

- **A new feature, Write Multiple Lineups to Text File(s), makes it very easy to quickly save many lineups as individual text files or together in one single text file.**
- **A new feature, 'Load Multiple Lineups from Text File(s) - Standard Method', lets users load many lineups from multiple text files, or from a single text file.**
- **New 'Fix Unresolved Call Letters' dialog enables users to easily specify in one place how to resolve multiple issues with stations imported from text file(s).**
- **Added enhancements to writing the currently open lineup to a text file.**
- **In the 'Group Management' dialog, it is now possible to select several lineups quickly using the shift-key method, similar to the 'Pick from List' dialog.**
- **When a composite lineup is out of date, you will now be able to see why by using the 'Composite Lineup Instructions' dialog. Also, this dialog now includes new 'Sort' and 'Clear' buttons. Finally, the 'Composite Lineup Instructions' dialog and Composite Lineup Report now support Daypart filters.**
- **A new 'Groups' button has been added to the Lineup Manager tool bar, allowing users to see which groups are assigned to the currently opened lineup, and modify assignments as needed.**
- **The Lineup Directory Report and Composite List Report both now have a 'Cancel' button for when a report is too time consuming.**
